

The Sacrosanct Treaty of the South

Issued by Hierophant Andelo Kopač

Forged by the Upper Echelon and the Council of Exarchs

The High Church of Messiah-as-Emperor and The Trilliant Ring hereby announce a treaty in pursuit of lasting peace in the galactic south of Acheron Rho and beyond.

By signing this treaty, both parties committed to defend one another against aggressors - both foreign and domestic - and provide assistance to one another when called upon.

Therefore, the High Church of Messiah-as-Emperor and The Trilliant Ring declare publicly and formally our common determination to defend ourselves and the people of our region against external attack.

Let no potential aggressor be under the illusion that either of us stands alone.

“This treaty reaffirms both parties’ absolute commitment to Justice and Diligence for the betterment of Imperial citizens across the sector,” noted Exarch Tatiana the Grand Voice. “Together, we shall resist those who seek to harm the Empire and infringe upon the rights and standing of the High Church, and jointly enforce peace in the galactic south of Acheron Rho, bringing the best of humanity - whether that be the technological marvels of The Trilliant Ring or the divine wisdom and experience of the High Church - to all in the region.”

“Trilliant and the High Church strive for the perfection of humanity in different ways,” said a delighted Lev Taafe, one of the leading minds of The Trilliant Ring who has been with them since its founding. “This treaty cements the fact that our views and methods are not contradictory, but rather complement each other.”

Smiles and cheers went up from delegates in attendance at the moment the treaty was officially confirmed, knowing that a united humanity within Acheron Rho was one step closer.

STATEMENT OF INTENT

This document signals the start of Mutual Defensive Pact between The Trilliant Ring and The High Church. It is not aimed at any particular faction. Neither Trilliant nor The High Church of Messiah-as-Emperor wish to break apart the current bonds or functions of the sector’s various factions. Instead, we would like to play our part within this wonderful experiment that is Acheron Rho.
